The ~~Scholarship~~ Scholarship sanctioned by the Govt of India is ~~now~~ for ~~the~~ training candidates for the Archaeol Department & not the PWD

It may also be noticed that the Candidates ~~should~~ are required to be Arts graduates and not persons with Engineering Qualifications - The discussion in the present file however ~~leads to the inference that~~ seems to be based on the impression that such training would be useful for men in the PWD ~~as~~ It is however not clear if the training contemplated in the G I resolution is the kind of training required for an Engineering ~~Officer~~ Officer Under the circumstances it seems to be necessary to know Exactly what the scope of the contemplated training is and in which department effort such training is required to be utilised first)

37. Before sending a candidate for training it is necessary to have definite ideas as to what the object is for which is expected to be attained and of the course prescribed wills helps that object to be attained Merely because the Govt of India sanction a scholarship it does not follow that we should also follow suit

10. It is not clear whether the candidate proposed is to be trained for the Engineering Deptt or the archaeological Deptt as both departments are mentioned by the Ch Engr. In the former case the deptt noticed in the previous note would apply in the latter case it may be mentioned that the need for the services of such a hand in the archaeological Deptt has not been discussed by that Deptt further the

A reference to the original Government of India Resolution dated the 19th September 1913 is requested before any further action is taken The proposal to train certain selected Arts - - Graduates in Architecture so that they may become fit for employment in the archaeological Department has emanated rom a Conference of Orientalists It is therefore clear the training that will be given in the Bombay Architectural Engineer's office will aim at the qualification necessary for employment of the candidate in the Archaeological Department It therefore appears desirable that a talented B A with Sanskrit or Manarese as his optional subject and having a taste for drawing work , should be -- chosen for training and as this will continue for 4 years and more, partly in the Architectural - -- Engineer's office and partly in the School of - - Arts Bombay, it may be expected that the - - - selected candidate will become proficient in his work even if he is an ordinary B A without any previous Engineering qualifications The - - - - Archaeological Department should therefore be consulted as to whether such a candidate is at all wanted by them and if so wanted, the Inspector General of Education will no doubt be able to select a suitable B A In this case, the scholarship need not be more than Rs 50 per month and the conditions of employment may be settled If an architectural draftsman is required for P W D , this Department will send a draftsman for - - -

60 - I think it is very necessary that we should have one or two men trained in the theory and -- practice of architecture at Bombay The men so trained will be useful both in the D P W and the Archaeological Department, and there is no ground at all for supposing that the training will be of no use to the D P W

61 The Archaeological Department is sorely in need of the services of such an architect, not for building new artistic temples but for conserting by suitable repairs and restoration, where necessary the numerous ornate structures found in different - parts of the Province Many of these structures are remarkable for their architectural beauty and artistic work, so that any country may justly be proud of them But the majority of these are going to ruin for want of skilled supervision, and the repairs and restoration carried out in some cases by the D P W have been severely criticised by trained archaeologists Every Archaeological Circle in - British India has such a trained architect attached to it, and repairs &c to buildings of archaeological interest, where attended to by the D P W , are invariably made under the advice and supervision of this special officer

62 Personally I keenly feel the want of such an architect in connection with the proposed Monograph on the Chalukyan Buildings A mere engineer cannot for obvious reasons, serve as a substitute for him

Mysore Resident's Office,

Bangalore, the 16th October 1913

F.1-12 Resolution of the Government of India in the Department of Education, Nos 419-435, dated the 19th September 1913

A copy of the foregoing resolution is forwarded herewith to the Government of His Highness the Maharaja of Mysore -- for information

First Assistant Resident

m

Exercise 1 2

NOS 419 435

GOVERNMFNT OF INDIA

DEPARTMENT OF EDUCATION

ARCHÆOLOGY AND EPIGRAPHY

Simla the 19th September 1913

RESOLUTION

The Government of India have had under their consideration the recommendation of the Conference of Orientalists held at Simla in July 1911 that opportunity should be afforded to Indian students to accompany conservators in order to learn the principles and practice of architecture They have decided in communication with those local Governments who have consulting architects to award three scholarships of the value of Rs 100 a month to Indians in order to facilitate this training As there are greater facilities for architectural education and for a combination of a thorough course of theoretical instruction with practical training in Bombay than elsewhere in India they have decided that these scholars should be trained in the office of the Consulting Architect to the Government of Bombay

2 The conditions of the three architectural scholarships will be as follows —

(*a*) the scholarships which are open to all natives of India will be of the value of Rs 100 a month each the cost of which will be defrayed from Imperial revenues

(*b*) the scholarships will be granted for architectural training at the office of the Consulting Architect to the Government of Bombay where the scholars will also attend the architectural classes at the Sir J J School of Art They will be tenable for a period of three years in the first instance but may be extended to a fourth year on the condition that the scholarships for that year will be given only to those scholars who pass a certain standard to be prescribed hereafter in an examination at the end of the third year's training

(*c*) at the close of their training those scholars who appear to possess the necessary aptitude will so far as possible be taken into the Archæological Department in order to give them special practical instruction for one or two years on a suitable salary

3 The following procedure will be observed in the selection of candidates for the scholarships —

(*a*) each local Government will be asked to nominate as soon as possible a candidate who has taken the B A or other equivalent degree in an Indian University These qualifications will only be dispensed with in exceptional cases The candidate must produce a medical certificate of physical fitness to undergo the proposed courses of study at Bombay

(*b*) the Government of India will select three scholars from among the candidates nominated by the local Governments

4 The candidates to whom the scholarships are awarded will proceed to Bombay and report themselves to the Consulting Architect to the Government of Bombay not later than a certain date to be fixed hereafter The scholarships will be payable from the dates of the report of their arrival in Bombay

Order—Ordered that a copy of this resolution be forwarded to all local Governments and Administrations for information and necessary action at an early date

Ordered, also, that a copy be forwarded to the Finance / Foreign / Public Works Department, Director-General of Archæology in India for information and that the resolution be published in the supplement to the *Gazette of India*

Applications are invited before 15th January 1915 from graduates of Mysore, not above 23 years of age, who have passed with History or Sanskrit as their optional subject for a scholarship for undergoing training in Architecture in Bombay

2 Candidates possessing a training in Engineering or knowledge of drawing will be preferred

3 The scholarship is of the value of Rs 75/- per mensem and is tenable for a period of three years in the first instance but may be extended ~~to~~ over a fourth year if the scholar is found at the end of the three years ~~found~~ to have attained the standard prescribed by the Government of India

4 The scholarship holder will receive architectural training at the office of the consulting architect to the Government of Bombay, where he will also attend the Architectural classes at the Sir J J School of Art

5 At the close of the training the scholar ~~as far as possible~~ will have a chance of being be taken into the Archeological Department on a salary of not less than Rs. 100 - 150 Rs.

This has to be fixed if the clause is to be retained

6 The candidate should produce a medical certificate of physical fitness to undergo the proposed course of study at Bombay

as 27/12

7 The candidate to whom the scholarship is awarded will proceed to Bombay and report himself to the consulting Architect to the Government of Bombay not later than a date to be notified hereafter The scholarship will be payable from the

date

16

date of report of his arrival in Bombay

8 Single 3nd class fare and actual luggage charges not exceeding the another 2nd cl fare will be paid for proceeding to Bombay and for return therefrom if the course is sucessfully undergone

9 Government reserve the right to discontinue the scholarship at any time if the progress of the candidate is not satisfactory or for other valid reason

SIR

With reference to your letter No 2160/Edn 161-13-10 dated 23rd December 1914 in the matter of awarding a scholarship for undergoing training in Architecture in Bombay I have the honour to submit herewith a list of applicants along with the applications in original and to state that in my opinion Mr B Venkoba Rao (Reg No 1) is the best among the applicants He is a graduate in History with Sanskrit as his second language Besides he is an excellent draughtsman and his specimens show that he has a distinct talent in Drawing The only drawback in his case is that he is above 23 years of age being 30 years old at present but I think that this may be overlooked in consideration of his other qualifications As alternatives I would propose Mr M Rajagopala Rao (Reg No 5) or Mr T K Srinivasa Rao (No 6) Both are History graduates and are not above 23 years of age The first is employed at present as an Assistant Epigraphist under the Madras Government while the second apparently holds no appointment

I have the hohour to be
